Short explanation of rule/amendment/repeal and reason(s) for proposing rule/amendment/repeal:

Per the federal law, the Public Health Service Act, in order to receive the federal grant, as outlined in the Act, a poison control center must be accredited by a professional organization in the field of poison control, and the Secretary has approved the organization as having in effect standards for accreditation that reasonably provide for the protection of the public health in regard to poisoning; or the center has been accredited by the state government as having in effect standards for accreditation that reasonably provide for the public health with respect to poisonings. The Mississippi Poison Control Center (MPPC), located on the campus of the University of MS Medical Center has requested the Mississippi State Department of Health develop standards and become the state's accrediting body for the MPCC. The attached are the standards by which the MPPC must comply in order to be accredited in the State of Mississippi.
